Docket No. 50-320

Mr. F. R. Standerfer
Vice President/Director, TMI-2
GPU Nuclear Corporation
P. O. Box 400
Middletown, PA 17057

Dear Mr. Standerfer:

Subject: Safety Evaluation Report for Sediment Transfer and Processing Operations

References: (a) GPU letter 4410-87-L-0022, F. R. Standerfer to USnK
(c) NRC letter NRC/TMI 86-095, W. D. Travers to F. R.

Reference (a) submitted for NRC staff review and approval your revision to the Sediment Transfer and Processing Operations Safety Evaluation Report. The revisions included your proposals for permitting supernatant liquid from the Auxiliary and Fuel Handling Building and Reactor building process operations to be discharged to the Reactor building; deleting the requirements for redundant level monitors for the Spent Resin Storage Tanks; and increasing the estimated maximum gamma exposure from 20 to 30 mrem.

We have completed our reviews of reference (a) and have determined that the proposed revisions to reference (b) have been previously bounded by our reviews which were submitted to you in reference (c).
We therefore approve the proposed revisions to reference (b) as described in reference (a) contingent upon the submittal of related procedures subject to Technical Specification 5.8.2.

Sincerely,

ORIGINAL SIGNED BY:

William D. Travers

William D. Travers, Director
NUL-2 Cleanup Project Directorate
