US Nuclear Regulatory Commission  
Attn: Document Control Desk  
Washington, DC 20555

Dear Sirs:

Three Mile Island Nuclear Station, Unit 2 (TMI-2)  
Operating License No. DPR-73  
Docket No. 50-320  
Auxiliary and Fuel Handling Buildings  
Quarterly Decontamination Schedule

In response to the NRC Letter dated May 7, 1984, the following is the status of Auxiliary and Fuel Handling Buildings Decontamination for the Third Quarter of 1988. As of this update, Technical Specification surveillances are being performed in all required areas of the Auxiliary and Fuel Handling Buildings. Thus, no ALARA exemptions are necessary. Since this report was intended to identify only those areas for which an ALARA exemption from Technical Specification surveillances was taken, this letter represents the final Quarterly Decontamination Schedule Report to be submitted in response to the May 7, 1984, NRC letter.

Sincerely,

  
M. B. Roche  
Director, TMI-2
