June 26, 1980

Docket No.: 50-320

Mr. R. C. Arnold
Senior Vice President
Metropolitan Edison Company
100 Interpace Parkway
Parsippany, NJ 07054

Dear Mr. Arnold:

Attached for your information is a copy of a letter from Thomas Gerusky concerning the disposal of water in the sampling wells at TMI-2. Based on this letter, the water following sampling for analysis may be placed in the storm water drainage system, which discharges to the drainage pond on-site.

Sincerely,

[Signature]

John T. Collins
Deputy Program Director
TMI Program Office

Mr. John Collins
The Nuclear Regulatory Commission
P. O. Box 311
Middletown, Pennsylvania 17057

Dear John:

This is to verify our conversation of last week concerning the disposal of the water in the sampling wells. The water, following sampling for analysis may be placed in the storm water drainage system which discharges into the drainage pond on site.

It is our understanding that if any sample analysis reveals higher than normal radioactivity levels, some remedial action will be taken.

Sincerely yours,

Thomas M. Gerusky, Director
Bureau of Radiation Protection
