## PLANT STATUS

Conditions remain stable with the coolant degassification continuing as scheduled. Progress is being made in the waste management handling in the auxiliary building.

## PARKING VIOLATIONS

The State Police have begun issuing tickets for vehicles parking along Route 441. Park in the area provided at the 500KV Substation. Show your ID when entering the lot.

## TEAM OF EXPERTS ON SITE

More than 200 scientists and engineers representing every facet of nuclear power have been assembled to plan the safe and orderly shutdown of Three Mile Island Unit 2. Hundreds of others are assisting from their home locations.

H.E. Dieckamp, President of General Public Utilities Corporation, the parent company of Metropolitan Edison Company and the other owners, reported that the team of experts was recruited from throughout the country and is in addition to those assigned by the GPU companies and by the Nuclear Regulatory Commission (NRC).

Within the overall team, a special Industry Advisory Group of scientist and engineers, headed by Milton W. Levenson of Electric Power Research Institute (EPRI) is assisting the effort.

## TLD ISSUE

No TLD will be issued on the 11 p.m. to 7 a.m. shift from now on.

## OFFICE SUPPLIES

The phone number for Office Supplies is 944-4041, extension 224 or 251. Ask for Ken Baney, TMI Stores Supervisor.

## BURNS & ROE PURCHASING

A Burns and Roe purchasing group has been set up in Warehouse #2 at TMI. Call Frank Borgia at 944-7621, Extension 273 for all B & R engineering requisitions.

## CLEANUP DETAIL

If you are having any problem with janitorial service, call Ext. 150 or 151.
