

PRELIMINARY NOTIFICATION OF EVENT OR UNUSUAL OCCURRENCE--PNO-I-87-49B

This preliminary notification constitutes EARLY notice of events of POSSIBLE safety or public interest significance. The information is as initially received without verification or evaluation, and is basically all that is known by the Region I staff on this date.

Facility:	GPU Nuclear Corporation	Licensee Emergency Classification:
	Three Mile Island, Units 1 and 2	Notification of Unusual Event
	Docket Nos. 50-289 and 50-320	Alert
		Site Area Emergency
		General Emergency
		<u>X</u> Not Applicable

Subject: DRUG INVESTIGATION AT TMI (UPDATE)

On June 12, 1987, the licensee informed NRC Region I that confirmed positive drug test results have been received on ten employees. Also, one employee refused to undergo testing and was discharged. Of the ten employees one has resigned, one was fired for failing to cooperate with the investigation, and eight have been suspended without pay. The eight suspended employees can regain their jobs after 30 days if they successfully complete a rehabilitation program and subsequent evaluation by a GPU psychologist.

There are no positive test results (or test refusals) involving licensed operators or management personnel.

The licensee is issuing a press release today. The Commonwealth of Pennsylvania has been informed.
