The NRC Advisory Panel for the Decontamination of TMI Unit 2, at the December 8, 1983 meeting, passed a resolution connecting the cleanup of Unit 2 to the restart of Unit 1. The resolution states that the Panel is against the consideration of the restart of TMI Unit 1 until the committed funding plan for the cleanup of the Unit 2 reactor is in place. The vote on this resolution was five in favor, one opposed, one abstention.

Media interest occurred because of public sensitivity to TMI related events.
