LER 79-020/03L-0

Cause Description and Corrective Actions (27)

These studies should be restarted by January 1, 1980.

Between the time the studies were discontinued (April 16, 1979) and the time this action was determined to be a violation of the ETS (November 1, 1979) there has been a change in management staff responsible for these and similar programs. The new staff has been made aware of the circumstances surrounding the violation and have been instructed in the actions which must be taken before any program or study can be discontinued or modified. This should ensure that recurrence of similar violations are prevented.
