CAUSE DESCRIPTION AND CORRECTIVE ACTIONS (27)

10 The event was caused by operator error in that a previous check of the level was

11 misrecorded and no oil was added to keep the level in spec. Oil was ordered

12 immediately and was delivered by 1728 hours on 5/1/80. The diesel was then

13 operable. The frequency of the oil level inspection has been increased to insure

14 compliance with the specification.
