V. Operator Examinations

Appendix A sets forth these categories and describes the materials available in each. Omission of a category in this report indicates that no documents in that category were filed in the time period of the report.

Title list reports on Three Mile Island may contain titles that refer to Oyster Creek Unit 2 because prior to March 10, 1969 the design was to be used for that plant. When the designation became Three Mile Island Unit 2, the NRC docket number was not changed.

The principal elements of the entries in the list are:

1. NRC/PDR document category (see Appendix A).
2. NRC Accession Number.
3. Description of information contained in the document.
4. Personal author. An asterisk in this position indicates that there is no personal author.
5. Corporate, agency or nonindividual source.
6. Date of document described.
7. Pages in document.
8. If this space is blank, the document is available to the public only in the NRC Public Document Room and the State Library of Pennsylvania (see notes for instructions on how to obtain copies). If this space is filled, it gives other sources for copies of the document. The entry may be "Available at NTIS" or "Available at GPO." If the docketed document has a contract (FIN) number or a formal report number, it will appear in the last line following entry 5.

Entries indented and preceded by an asterisk are items that were submitted as enclosures to the unindented document.

We would appreciate your comments, criticisms and suggestions regarding this document. In particular, if there are title descriptions that are not meaningful, please let us know so that we can correct our data base.

The Data Issued column designates whether an entry is in the Preincident Section of this report (all documents issued through March 27, 1979) or the Postincident Section (documents issued March 28, 1979 and since). The letter (A-V) following the date indicates the Docket 50 category for the entry. Please see the Preface for a full discussion of categories.

An asterisk following the accession number in this index indicates that the document is an enclosure to another document. To obtain the accession number of the principal document under which the enclosure is listed, refer to the Index titled "Cross Reference of Enclosures to Principal Documents."

The Data Issued column designates whether an entry is in the Principal Section of this report (all documents issued through March 27, 1979) or the Postincident Section (documents issued March 28, 1979 and since). The letter (A-V) following the date indicates the Docket 50 category for the entry. Please see the Preface for a full discussion of categories.

An asterisk following the accession number in this index indicates that the document is an enclosure to another document. To obtain the accession number of the principal document under which the enclosure is listed, refer to the Index titled "Cross Reference of Enclosures to Principal Documents."
