Docket No. 50-320

Mr. R. C. Arnold
Senior Vice President
Metropolitan Edison Company
100 Interpace Parkway
Parsippany, NJ 07054

Dear Mr. Arnold:

Subject: TMI-2 Recovery Operations Plan Change Request No. 4 (Letter, TLL-342, G. Hovey to B. Snyder, July 15, 1980)

We have reviewed the subject Plan Change Request and concur with a 225 psig to 400 psig nitrogen bank pressure instead of the previous setpoints of 1500 psig to 2400 psig for the Standby Pressure Control System. It is our understanding that this adds additional precaution to avoid overpressurization of the exposed Decay Heat System piping. We will designate the change as Recovery Operation Plan Approved Change No. 1, to indicate our concurrence.

Original signed by
John T. Collins
