Dear Mr. Hovey:

We have reviewed your proposed revision to the TMI-2 Organization Plan which was submitted in your letter of September 24, 1981 (LL2-81-0220). The proposed revision would make the following changes in the TMI-2 organization:

1. Transfer the responsibility and reporting requirements of TMI-2 Recovery Engineering from the Director, Technical Functions to the Director, TMI-2 Recovery Programs Office.
2. Establish a separate Licensing section at TMI-2 reporting directly to the Director, TMI-2. The TMI-2 licensing functions were previously under the Director, Technical Functions.
3. Transfer the responsibility and reporting requirements of the Process Operations Shift Supervisor (Formerly Supervisor Process Operations) from the Plant Operations Director (formerly Manager, Operations) to the Manager, Plant Operations (formerly Supervisor, Plant Operations).
4. Add a Shift Supervisor position between the Shift Foremen and the Manager, Plant Operations to provide additional support to the Manager, Plant Operations.
5. Disband the Process Support group. Plant Engineering and Recovery Engineering would provide process engineering service and support. The Plant Operations Director would assume primary responsibility for handling and disposal of radioactive wastes.

We concur with your position that these revisions to the TMI-2 Organization Plan will not cause any loss of function under the current requirements of Section 6 of the proposed Appendix A Technical Specifications (the requirements of which were imposed by the Order of February 11, 1980) to occur. Therefore, we have approved the requested change.

Sincerely,

8110080533 810929
