Doclet No. 50-320

Mr. F. A. Standerfer
 Vice President/Director TMI-2
 GPM Nuclear Corporation
 P. O. Box 680
 Middletown, PA 17057

Dear Mr. Standerfer:

Subject: Organization Plan Change No. 12

Reference: Letter 4410-85-L-0031, F. Standerfer to W. Travers, TMI-2
 Organization Plan Revision 12, dated February 11, 1986

We have reviewed proposed Revision No. 12 to the TMI-2 Organization Plan as discussed in the referenced letter. This revision would establish a defueling organization reporting directly to the Office of the Director, TMI-2 with singular responsibility for defueling activities. It would also consolidate all defueling related operations, engineering, and support functions in the defueling organization.

The staff agrees that the above changes are necessary in view of the current transition in the production phase of defueling and that they will enable more efficient conduct of defueling activities. We find that since none of the changes will eliminate vital positions or functions, they are acceptable. Accordingly, Figure 1.2 as modified in the referenced letter should be substituted for the existing Organization Plan Figure 1.2.

Our approval of Revision No. 12 to the TMI-2 Organization Plan is effective upon your receipt of this letter.

Sincerely,

/s/ C. Cowgill for

William D. Travers, Director
 TMI-2 Cleanup Project Directorate
