Mr. Michael B. Roche
Vice President/Director TMI-2
GPU Nuclear Corporation
P.O. Box 480
Middletown, PA 17057

Dear Mr. Roche:

SUBJECT: ORGANIZATION PLAN CHANGE NO. 19

Reference: Letter 4410-88-L-0180/0437P, M. Roche to U.S. Nuclear
Regulatory Commission Document Control Desk, TMI-2
Organization Plan Revision 19, dated November 16, 1988

We have reviewed your proposed Revision No. 19 to the TMI-2 Organization Plan. The proposed change to the organization of the Site Operations Department incorporates the Decontamination Section into the Waste Management Section. The decontamination section would no longer appear on Figure 1-2 of the TMI-2 Organization Plan.

Your November 16, 1988 submittal states that the activities typically performed by the Decontamination Section are closely related to Waste Management activities and in the interest of efficiency and effective use of resources it would be appropriate to combine the two organizations.

We find that the proposed revision will not eliminate vital positions or functions within the TMI-2 organization, and it will not change the personnel qualification requirements for these positions. We, therefore, approve your proposed Organization Plan Revision 19. The enclosed Figure 1-2, Rev. 19 should be substituted for the existing Organization Plan Figure 1.1.

Sincerely,

original signed by

John F. Stolz, Director
Project Directorate I-4
Division of Reactor Projects I/II
Office of Nuclear Reactor Regulation
