Dear Mr. Roche:

SUBJECT: ORGANIZATION PLAN CHANGE NO. 20

Reference: Letter 4410-89-L-0017/0060P, M. Roche to U.S. Nuclear  
Regulatory Commission Document Control Desk, TMI-2  
Organization Plan-Revision 20, dated February 13, 1989

We have completed our review of your proposed Revision No. 20 to the TMI-2 Organization Plan. The proposed change combines the existing engineering sections of the Defueling Department and the Site Operations Department into one department reporting directly to the Office of the Director, TMI-2. The proposed change also eliminates the Project Planning and Analysis Department. Activities internal to the organization would be transferred to the newly created Engineering Department. The remaining external interface functions of the Project Planning and Analysis Department will be assumed by the Office of the Director.

Your February 13, 1989 submittal states that with the approaching end of the TMI-2 defueling program a single coordinated multidiscipline engineering support organization is a more effective and appropriate use of resources.

We find that the proposed revision will not eliminate vital positions or functions within the TMI-2 organization, and it will not change the personnel qualification requirements for these positions. We, therefore, approve your proposed Organization Plan Revision 20. The enclosed Figure 1.2, Rev. 20 should be substituted for the existing Organization Plan Figure 1.2.

Sincerely,
