Docket No. 50-320

Mr. Michael B. Roche  
Vice President/Director - TMI-2  
GPU Nuclear Corporation  
P.O. Box 480  
Middletown, Pennsylvania 17057

Dear Mr. Roche:

SUBJECT: ORGANIZATION PLAN CHANGE NO. 22 (TAC 075373)

Reference: Letter 4410-89-L-0119/00609, M.B. Roche to U.S. Nuclear  
Regulatory Commission, Document Control Desk, TMI-2  
Organization Plan - Revision 22, dated November 27, 1989

We have completed our review of your proposed revision No. 22 to the TMI-2  
Organization Plan. The proposed revision eliminates the Defueling and  
Engineering Departments and includes the remaining engineering functions  
within the Engineering Section of the Site Operations Department.  
Additionally, a new section, the Special Projects and Construction Support  
Section, is being created in the Site Operations Department. The proposed  
changes reflect the conclusion of the TMI-2 defueling program and the  
elimination of the need of a separate engineering support organization. The  
proposed changes would be effective upon the completion of defueling.

The proposed changes will not eliminate any vital positions or functions  
within the TMI-2 organization, nor will it change the personnel qualifications  
for these positions. It represents an organization realignment consistent  
with the progress of the cleanup. We, therefore, approve your proposed  
Organization Plan Revision 22. The enclosed Figure 1.2, Rev. 22 should be  
substituted for the existing GPU Organization Plan, Figure 1.2.

Sincerely,

/s/

John F. Stolz, Director  
Project Directorate 1-4  
Division of Reactor Projects - 1/11  
Office of Nuclear Reactor Regulation
