Director and Vice President
Corporate Services/Director, TMI-2

Post Office Box 480

Dear Dr. Long:

SUBJECT: ORGANIZATION PLAN CHANGE NO. 26 (TAC NO. M86042)

Reference: Letter from R. L. Long to U.S. Nuclear Regulatory Commission Document Control Desk, TMI-2 Organization Plan - Revision 26 - dated March 15, 1993.

We have completed our review of your proposed partial reorganization of General Public Utility Nuclear (GPU). As stated in your letter of March 15, 1993, the GPU Nuclear support division site services will be organizationally eliminated and the personnel, functions and responsibilities will be incorporated into the Corporate Services Division. The new division will be called Services. We understand that the change in name and reporting relationship will not in itself affect any plant system, sub-system, structure, or component at TMI-2.

The proposed change will not eliminate any vital positions or functions within the TMI-2 organizations, nor will it change the personnel qualifications for these positions. It represents a reorganization at the corporate level and does not affect the onsite organization. We, therefore, approve your proposed Organization Plan Revision No. 26. The enclosed Figure 1.1, Revision No. 26 should be substituted for the existing GPU Nuclear Organization Plan Figure 1.1. This change will become effective on May 1, 1993.

Sincerely,

Original signed by:
