Mr. Michael Hollis
Acting Deputy Chief Counsel
Room 17 - Old Executive Office Building
Washington, D. C. 20500

Dear Mr. Hollis:

Per your telephone request this morning, we are sending to you, by courier to the Departmental Auditorium on Constitution Avenue, the following documents:

1. Principle NRC Staff Involved in TMI Operations
2. Three Mile Island Recovery Operation - Support Organizations
3. People at TMI-2 Site as of April 10, 1979
4. Open Meeting Briefing on Principal Factors Related to Current Status of Operating Plants (unofficial transcript of April 23, 1979 briefing at NRC)
5. SECY-79-265: Proposed Format for Early Publication of Preliminary Dose and Health Risk Assessments for Three Mile Island Accident

Please note that the list of support organizations compiled by our regional office in Pennsylvania is preliminary. Furthermore, due to the constraints, we have not attempted to ascertain the nature and extent of their involvement in the recovery operations as support organizations.

Enclosure 5 contains updated estimates on total population radiation doses on pg. 2, first paragraph, of enclosure to SECY paper.

Sincerely,

E. Kevin Cornell

E. Kevin Cornell, Deputy Executive
Director for Operations

Summary

If one includes caterers and other such contract people to service the other personnel, there is about 1462 people at the site. This is in addition to the normal compliment of about 500 site employees normally there (spread out over 3 shifts a day, 7 days a week).

The list does not include significant help by people off site, such as the NRC, National Laboratories, Hanford, Sandia, Oak Ridge, etc.
