TMI Program Office  
Attn: Dr. B. J. Snyder  
Program Director  
US Nuclear Regulatory Commission  
Washington, DC 20555

Dear Dr. Snyder:

Three Mile Island Nuclear Station, Unit 2 (TMI-2)  
Operating License No. DPR-73  
Docket No. 50-320  
TMI-2 Project Schedule

The attached provides additional TMI-2 schedule information as committed to in GPU Nuclear Letter 4410-85-L-0038 dated February 15, 1985. The 1985 Program Master Schedule (PMS) dated January 28, 1985, defines major program milestones through the end of the currently defined program.

The PMS reflects the current schedule to begin defueling operations on July 1, 1985. As previously stated, this is our target date; however, there are several significant activities that must be successfully completed in order to achieve this goal. GPU Nuclear will review the project status during April and determine whether the July 1, 1985, start date is achievable. Every effort will be made to maintain the current schedule while ensuring that defueling will be conducted safely.

Sincerely,

F. R. Standerfer  
Vice President/Director, TMI-2
