Dear Dr. Travers:

Three Mile Island Nuclear Station, Unit 2 (TMI-2)
Operating License No. DPR-73
Docket No. 50-320
1986 Program Master Schedule

Attached for your information is the TMI-2 Program Master Schedule (PMS) dated April 1986. This supercedes the previous PMS dated August 1985.

The program end point remains unchanged. However, several intermediate milestones have shifted. Decontamination milestones have been advanced one calendar quarter and Defueling operation milestones have been delayed three to six months.

In addition, accident water disposition and interim monitored storage activities have been included as separate schedule lines.

Sincerely,
