Dear Dr. Travers:

Three Mile Island Nuclear Station, Unit 2 (TMI-2)
Operating License No. DPR-73
Docket No. 50-320
1986 Program Master Schedule Update

Attached for your information is the TMI-2 Program Master Schedule (PMS) dated October 1986 which supersedes the previous PMS.

The program end point remains unchanged; and, based on the results of the Core Stratification Sampling during July, 1986, we have been able to schedule our defueling activities (both in-vessel and ex-vessel) to show completion by December, 1987. The projected completion for Waste Management activities and Processed Water Disposal are after the program end point.

Sincerely,

F. R. Standerfer

Vice President/Director, TMI-2
