

JAN 28 1988

Docket Nos. 50-289; 50-320

GPU Nuclear Corporation
ATTN: Mr. H. D. Hukill
Vice President and Director, TMI-1
P. O. Box 480
Middletown, Pennsylvania 17057

Gentlemen:

Subject: NRC Staff Emergency Preparedness at Three Mile Island

As you are aware, the NRC will reorganize the staffing at TMI and the TMI-2 Cleanup Project Directorate (TMICPD) will dissolve effective February 1, 1988. Because of the unique staff at TMI-2, an internal memorandum, dated June 27, 1985, on "Events Response for NRC TMI On-Site Staff" was provided to you which described how the site staff would respond to events at TMI. Because of the reorganization, it will no longer be necessary to have a separate document defining event response at TMI. Accordingly, this is to inform you on how we intend to respond to events at both units in light of the above-noted reorganization.

Effective February 1, 1988, the June 27, 1985 NRC memorandum is cancelled. Response to events at TMI-1 and 2 will be similar to any operating power reactor as described in NUREG 0345 and the Region I supplement. Copies of these documents were provided to your staff.

With the cancellation of the June 27, 1985 memorandum, the NRC will no longer issue a weekly on-call representative listing. Additionally, the procedurally-required reports at TMI-2 are being deleted. Reports to the NRC should be made in accordance with the provisions of 10 CFR 50.72 and 73.

We will be glad to respond to any comments or questions you may have.

Sincerely,

Original Signed By:

William F. Kane, Director
Division of Reactor Projects
