FRIDAY, FEBRUARY 3, 1984, COMMISSIONERS'
CONFERENCE ROOM, D.C. OFFICE (OPEN TO
PUBLIC ATTENDANCE)

The Commission* met with the Advisory Panel on TMI-2 Cleanup to receive the Panel's periodic report to the Commission.

The Commission agreed to review the January 25, 1984 staff review of the OI report on TMI-2 cleanup allegations (SECY-84-36) and to expeditiously consider releasing the document with any modifications or contexting statements the Commission deems appropriate.

The Commission requested that staff:

1. provide members of the Advisory Panel with copies of the list of proposed options for water disposal at TMI so that the Panel can comment on any present or near term actions that the Panel believes are necessary, and any additional options for disposal of the water; and
(EDO) (SECY Suspense: 2/29/84)
2. inform the Commissioners of the results of the scheduled meeting between EPA and the Advisory Panel. Specifically, the Commission is to be informed whether EPA indicates a desire to modify or discontinue its off-site monitoring role at TMI.
