

OFFICE OF THE SECRETARY

UNITED STATES NUCLEAR REGULATORY COMMISSION WASHINGTON, D.C. 20555

SCS IN RESPONSE, PLEASE REFER TO: M841115A

December 19, 1984

MEMORANDUM FOR: William J. Dircks, Executive Director for Operations
Herzel H.E. Plaine, General Counsel
FROM: Samuel J. Chilk, Secretary
SUBJECT: STAFF REQUIREMENTS - MEETING WITH ADVISORY PANEL ON TMI-2 CLEANUP, 11:00 A.M., THURSDAY, NOVEMBER 15, 1984, COMMISSIONERS' CONFERENCE ROOM, D.C. OFFICE (OPEN TO PUBLIC ATTENDANCE)

The Commission discussed with the Advisory Panel for the Decontamination of Three Mile Island Unit 2, agenda items as listed in the letter of November 7, 1984, from Chairman Palladino to Arthur E. Morris, Advisory Panel Chairman, as well as other items of interest to the Panel.

The Commission directed the staff to provide a schedule for the completion of any further enforcement action against GPU Nuclear.

(IE) (SECY Suspende: 1/11/85)

Chairman Palladino, noting the concern of the Advisory Panel that the Commission had decided not to issue a compliance schedule order for the cleanup of TMI-2, indicated that he would ask the Commission to reconsider its position on the issuance of an order.

(Subsequent to the meeting, the Commission voted in response to COMNP-84-37 and 84-46 to issue an information notice in the Federal Register on the progress of the TMI-2 cleanup effort of GPU Nuclear rather than to issue an order or policy statement.)

The Commission directed OGC (with input from NRR) to examine the Advisory Panel's Charter and provide an opinion as to whether there is a legal basis for the Panel to engage in a review of the epidemiological studies on the effects of the radiation releases associated with the TMI accident on the population surrounding TMI.
