OFFICE OF THE
SECRETARY

MEMORANDUM FOR: William J. Dircks, Executive Director
for Operations

Herzel H.E. Plaine, General Counsel

Ben B. Hayes, Director
Office of Investigations

FROM: John C. Hoyle, *John C. Hayes* Acting Secretary

SUBJECT: STAFF REQUIREMENTS - MEETING WITH ADVISORY
PANEL ON TMI-2 CLEANUP, 2:00 P.M., THURSDAY,
MARCH 7, 1985, COMMISSIONERS' CONFERENCE ROOM,
D.C. OFFICE (OPEN TO PUBLIC ATTENDANCE)

The Commission* discussed with the Advisory Panel for the Decontamination of Three Mile Island Unit 2, agenda items as listed in the letter of February 27, 1985, from Arthur Morris to Chairman Palladino.

The Panel advised the Commission of its desire to consider the results of epidemiological studies associated with radiation released during the TMI-2 accident (see SECY-85-70). The Commission requested that the Panel in consultation with the staff prepare a proposal setting forth the scope of inquiry and the criteria to be followed by the Panel in examining such studies.

(NRR/TMIPO)

(SECY Suspense: 5/3/85)

The Commission further instructed the staff to provide the Commission with an overview of all epidemiological studies undertaken to date and include a recommendation as to whether further studies should be done and suggestions as to the appropriate individuals or organizations to conduct further studies.

(NRR)

(SECY Suspense: 5/3/85)

Subsequent to receipt of the recommendations, the Commission will provide guidance to the Panel with the objective of providing such guidance prior to the Panel's June meeting, if possible.

* Commissioner Roberts was not present.

The Commission directed OGC and the staff to review the current policy on making information available to the Panel and to revise the policy to specifically delineate the types of documents that:

1. can be made available to the Panel for unrestricted use;
2. can be made available to the Panel with restrictions on further dissemination; or
3. should not be provided to the Panel.

The revised policy should be provided to the Commission for its review and then forwarded to the Advisory Panel for its review and comment.
