MEMORANDUM FOR: G. Smith
FROM: P. Kellogg
SUBJECT: RESIDENT QA STAFF FOR DAILY SURVEILLANCE OF TMI-2
ACTIVITIES

A memorandum to V. Stello from the NRR review team dated April 21, 1979 indicates IE has established a resident QA staff experienced in mechanical, electrical, and civil engineering disciplines, welding and NDE to provide daily surveillance of activities at TMI-2.

I recommend we establish who this resident staff is and how they function through onsite IE supervision to ensure all of the areas indicated in the NRR memo are covered. If we do not wish to provide all the indicated coverage, we should inform NRR of what coverage we are providing and have them modify their safety analysis report accordingly.

P. J. Kellogg
