Docket No. 50-320

Dr. Robert L. Long
Director, Corporate Services/
Director, TMI-2
GPU Nuclear Corporation
Post Office Box 480
Middletown, Pennsylvania 17057

Dear Dr. Long:

SUBJECT: APPROVAL OF POST-DEFUELING MONITORED STORAGE QUALITY
ASSURANCE PLAN FOR TMI-2 (TAC NO. PB1946)

The NRC staff has completed it's review of the GPU Nuclear Corporation's (GPU) Post-Defueling Monitored Storage (PDMS) Quality Assurance (QA) Plan. The plan was submitted for NRC review in a letter dated August 25, 1988, from F. Standerfer, GPU. Our January 14, 1992, request for additional information on your PDMS QA Plan resulted in your March 29, 1992, response to our questions. After completing our review of the PDMS QA Plan and your March 22, 1992 response, we conclude that the QA Plan, when properly implemented, will provide adequate confidence that TMI-2 will perform satisfactorily throughout the period of PDMS. Therefore, the staff finds the August 25, 1988, PDMS QA Plan acceptable as submitted.

This plan is not to be implemented until issuance of the license amendment that grants GPU a Possession Only License and modifies the Appendix A and B Technical Specifications to allow PDMS for TMI-2. Until that time, your TMI-2 Recovery Quality Assurance Plan, as revised, will apply.

Sincerely,

- original signed by -

Michael T. Masnik, Senior Project Manager
Non-Power Reactors, Decommissioning and
Environmental Project Directorate
Division of Reactor Projects - 111/IV/V
Office of Nuclear Reactor Regulation

Docket No. 50-370

Dr. Robert L. Long
Director, Corporate Services/
Director, TMI-2
GPU Nuclear Corporation
Post Office Box 480
Middletown, Pennsylvania 17057

Dear Dr. Long:

SUBJECT: APPROVAL OF POST-DEFUELING MONITORED STORAGE QUALITY ASSURANCE PLAN FOR TMI-2 (TAC NO. RB1946)

The NRC staff has completed its review of the GPU Nuclear Corporation's (GPLN) Post-Defueling Monitored Storage (PDMS) Quality Assurance (QA) Plan. The plan was submitted for NRC review in a letter dated August 25, 1988, from F. Standerfer, GPLN. Our January 14, 1992, request for additional information on your PDMS QA plan resulted in your March 29, 1992, response to our questions. After completing our review of the GPLN QA Plan and your March 22, 1992 response, we concluded that the QA Plan, when properly implemented, will provide adequate assurance that TMI-2 will perform satisfactorily throughout the period of PDMS operations. Therefore, the staff finds the August 25, 1988, PDMS QA Plan acceptable as submitted.

This plan is not to be implemented until issuance of the license amendment that grants GPLN a Possession Only License and modifies the Appendix A and B Technical Specifications to allow PDMS for TMI-2. Until that time, your TMI-2 Recovery Quality Assurance Plan, as revised, will apply.

Sincerely,

Michael T. Masnik, Senior Project Manager
