Dear Mr. Arnold:

Subject: Reactor Building Entry

Your letter, TLL 343, dated July 15, 1980, described changes which were proposed to the reactor building entry program following the reactor building purge. We have reviewed the proposed changes and the procedures which will be used during the reactor building entry. We find that your entry preparations are satisfactory and approve the entry as planned. HRC staff review of plans for future reactor building entries will be based on information received from the already established communication channels: POD meetings, procedure reviews, etc. A specific letter of approval for each future entry will not be required.

Sincerely,

Original signed by
