

December 20, 1979

Mr. R. C. Arnold  
Senior Vice President  
Metropolitan Edison Company  
100 Interpace Parkway  
Parsippany, New Jersey 07054

Dear Mr. Arnold:

In my letter to you of October 17, 1979, I indicated that I had established a special panel of health physics experts from within and outside the NRC to review the radiation protection program of Metropolitan Edison Company at TMI as currently constructed and planned to support the recovery program. On December 7, 1979, the panel submitted their findings to me in a report entitled, "The Report of the Special Panel on Three Mile Island Unit 2 Radiation Protection Program." I have attached a copy of the report for your review. At your earliest convenience, we would like to meet with you to discuss your course of action for timely implementation of the recommendations contained in the report. In addition, I am requesting that you provide me a quarterly status report on progress made to upgrade the radiation protection at TMI. The first such report is due by February 1, 1980.

Sincerely,

Harold R. Denton, Director  
Office of Nuclear Reactor Regulation

Enclosure:

"The Report of the Special Panel  
on TMI Unit 2 Radiation  
Protection Program," NUREG-0640
